I bought "A City Through Time" for a six year old. I was afraid that it was too advanced for his age when I received it, but his mother says it is a hit. :) They go through it a page at a time with him and he soaks it up like a sponge. Great book. An excellent way to introduce a child to the concepts of time and history.

Follow the story of a city from an ancient colony to a vast modern metropolis through stunning full-color illustrations. A City Through Time will transport you back to another age, as the award-winning Steve Noon brings the past to life in style. Panoramic scenes presented in a unique cutaway style are packed with colorful pictures showing everyday life in the city across the centuries. Clear descriptions surround each beautiful and jam-packed illustration to make sure the details aren't lost as you meet the characters who live and work there. Plus, each scene has a page devoted to key features, so you can get up close to a Roman bath-house, a medieval castle, or a modern skyscraper. A photographic section profiles great cities throughout history and a glossary tells you what you need to know about architecture, technology, work, and costumes throughout the ages. Steve Noon's A City Through Time is perfect for parents and children to look at together or for school projects. The more you look, the more you'll see.

Steve Noon's award-winning A Street Through Time has been revised and updated for a new generation. In a series of fourteen unique illustrations, A Street Through Time tells the story of human history by exploring a street as it evolves from 10,000 BCE to the present day. Readers will see how the landscape and the daily lives of people changed as a small settlement grows into a city, is struck by war and plague, and gains trade and industry.

Through Time and the City: Notes on Rome offers a new approach to exploring cities. Using Rome as a guide, the book follows familiar sites, geographies, and characters in search of their role within a larger narrative that includes the environmental processes required to generate enough space and material for the city, the emergent ecologies to which its buildings play host, and the social patterns its various structures help to organize. Through Time and the City argues that Rome is made and unmade by an endlessly evolving chorus that has, for better or worse, gained geological legitimacy; that the city absorbs and emits countless artifacts in its search for collective identity; that the city is a platform for the constant staging of negotiations between agents (humans, buildings, plants, animals, pathogens, goods, waste, water) that drive and are driven by the entanglements of climate and culture. This book provides textual and visual frameworks for identifying the material traces, emergent patterns, or speculated futures that expose a city as inseparable from its capacity to change.

The world's most famous cities through the ages! Walk around any famous city and layers of history start to emerge. In London, Roman walls are dwarfed by office blocks. In Rome, ancient treasures like the Colosseum stand shoulder to shoulder with buildings from the Renaissance. In New York, skyscrapers from the 1920s and 1930s predate enormous glass towers. In *Cities in Layers: Six Famous Cities Through Time*, six major world cities are shown at different stages throughout history. A clever die-cut element allows readers to really peel back layers of time.

eyes of someone their own age. History books often focus on adults, but what was the past like for children? A Child Through Time is historically accurate and thoroughly researched, and brings the children of history to life—from the earliest civilizations to the Cold War, even imagining a child of the future. Packed with facts and including a specially commissioned illustration of each profiled child, this book examines the clothes children wore, the food they ate, the games they played, and the historic moments they witnessed—all through their own eyes. Maps, timelines, and collections of objects, as well as a perspective on the often ignored topic of family life through the ages, give wider historical background and present a unique side to history. Covering key curriculum topics in a new light, A Child Through Time is a perfect and visually stunning learning tool for children ages 7 and up.

Cork City, Ireland's southern capital, is a place of tradition, continuity, change and legacy. It is a place of direction and experiment by people, of ambition and determination, experiences and learning, of ingenuity and innovation and a place of nostalgia and memory. The pictures within this book provide insights into how such a place came into being and focuses on Cork one hundred years ago. Cork's urban landscape is filled with messages about the past. As a port town, Cork was and still is strongly connected to the outside world - this small international city is ambitious in its ventures and links to a world of adventure and exploration. The photographs within the book help to show the human experience and sense of place and pride in the city, one hundred years ago and today. Views of streets, public spaces, churches, the docks, and an international exhibition to name a few, capture the energy and drive of a city - the legacies of which still linger on in the southern capital of Ireland.
