Configuring Access Rules - Cisco

Create an Access Rule. Step 1. Log in the web-based utility of the router and choose Firewall > Access Rules. Step 2. In the IPv4 or IPv6 Access Rules table, click Add to create a new rule. Note: On the RV34x Series Router, it is possible to

File Type PDF Access Rules Cisco

configure up to 202 rules. In this example, IPv4 is used. Step 3.

Configure Access Rules on an RV34x
Series Router - Cisco

Access rules determine which traffic is allowed through the ASA. There are

File Type PDF Access Rules Cisco

several different layers of rules that work together to implement your access control policy: Extended access rules (Layer 3+ traffic) assigned to interfaces—You can apply separate rule sets (ACLs) in the inbound and outbound directions.
