transmission leak | Chevy
Corvette Forum

Changing transmission fluid every
two years is a good rule of thumb
regardless of mileage. This will
minimize condensate build-up,
keeping you on the road past the
100,000 mile plus mark. Fluid
Recommendations. GM
recommends Dexron III for all C5
manual and automatic
transmissions for proper
lubrication. Here is where things
get fuzzy.

the transmission, then unscrew the fill plug. Fluid drains from the transmission quickly at first. When the flow of fluid has stopped, support the bottom pan of the transmission body, then unscrew the bolts. Carefully lower the detached transmission pan and empty the remaining fluid into the catch pan.

Gateway Classic Cars

The C5 model of the popular Corvette was produced from 1997 to 2004. The C5 does not have a dipstick to check the transmission fluid. The fluid level must be checked by raising the car and accessing the fill plug next to the transmission pan. The car must be raised sufficient to safely access the area.

How to Check the Transmission
Fluid in a 2001 Corvette ...

The C4 and C5 manual transmission Corvettes have suffered complaints from a locking steering column after the ignition is turned off. It remains in the locked position after restarting. Some reports have indicated that the steering
