An old school question here. I went back to using Cubase 3 with the Atari 1040ST to compose music. Overall, I love it, but the one thing I'm having trouble with is programming triplets for drums in the drum editor of Cubase. I've tried the different quantization methods such as 32 and 64, but cannot get any grooves other than the initial 16. I understand I'm very much in the minority of people ...
