If you were born before 1990, this may be the most valuable financial message you ever read... Something incredible is happening right now... An entirely new asset class is being created... One that is making more people rich than any other financial market. For example... If you had invested just \$100 in Bitcoin on January 1st 2017, you'd have \$1004 today - not bad right? What about if you'd also put \$100 into Ethereum on the same day? Well you'd have over \$8,500. Let's do one more. \$100 in Ripple on January 1st 2017 would be worth a staggering \$14,300 today. That's over a \$20,000 return from a \$300 investment. Or over \$200,000 if you'd put in \$3,000. A life changing amount of money. You won't find these kinds of returns in the stock market. Or any other financial market. And this is just the beginning. Now we're seeing real world adoption from leading financiers to governments to investment banks. And what you may not know is, private investments in blockchain companies have increased by 800% in the past 12 months. Cryptocurrency is moving beyond a speculation, and into a fully fledged asset class. We're gearing up to profit from the upcoming stock market crash. Are you? Dear investor, What I'm about to tell you SUCKS. But not listening to this message will affect your financial future. In fact, ignoring

this advice could cost you thousands, tens of thousands or even hundreds of thousands of dollars - depending on the size of your portfolio. You see, within the next 36 months there will be a stock market crash. All indicators show this is now a matter of when, rather than if. Wages are stagnating across the country. And the housing supply is beginning to outpace demand for the first time since 2008. These aren't just my opinions. They are shared by many Wall Street experts, including billionaire investors like Jim Rogers and Doug Casey. What's more alarming is... The numbers indicate this crash will be worse than 2008. Which wiped out over \$7 trillion dollars of investor money. So leaving your portfolio exposed... Will cause you to lose money faster than if you threw it off the edge of a cliff! However, it's not all doom and gloom. A few select investors, considered the smartest in the world...will not just survive the crash... They will thrive in the crash. For years their secrets have been closely guarded... But now you can benefit from the exact same strategies they use to protect...and even grow their wealth in a market downturn. The same strategies you can use to bulletproof your retirement. Strategies including: The "3 Rs" stocks which perform best in a bad market - Page 33 How to use cryptocurrency to hedge against your traditional portfolio - Page 59 The absolute worst type of stock to have in your portfolio, and one that always plummets during a downturn - Page 46 How regular folks can legally benefit from holding assets offshore - Page 41 The easiest way for the average investor to short the market (so simple, yet relatively unknown) - Page 31 The "pennies on the dollar method" to buy blue chip stocks at a huge discount (used by elite investors all the time) - Page 26 The asset which has become a favorite of billionaire crisis investors, and how you can invest using your regular brokerage account - Page 55 You'll also discover: 3 vital indicators which show us a market crash is imminent - Page 14 Stocks that need a growing market to prosper, and why you need to rebalance your portfolio if you hold a lot of them - Page 48 The 10 items you need to have a "go-bag". And why not being prepared may cost you dearly - Page 75 ....and much, much more. Plus you'll receive 2 free bonuses! Can you afford to suffer through another financial crisis? Can you afford to set your retirement back by 5 or even 10 years? If the answer is no, then click "add to cart" to see how you can thrive during the next market crash!
