"Touch me Austin. Please," I beg. I can't take it. He needs to touch me now, or I will literally die from the lack of physical contact. "Oh, my sweetness. I'm going to do far more than that. Do not fear what you are to feel. Embrace the darkness, and accept me inside you, my Emilia." His lips trail over my neck and my entire body trembles against his. "I accept you," I barely whisper, unable to control my mind and body from melting into the oblivion. This pull he has on me is too much. "Surrender. Surrender," the dark voice inside my mind whispers. Yesss. Surrender. Surrender I will. Surrender I must." -Quote from THE MONSTER

An astonishing portrait of a murderer and his complex relationship with a crusading journalist Michael Ross was a serial killer who raped and murdered eight young women between 1981 and 1984. In 2005, the state of Connecticut put him to death by lethal injection. His crimes were horrific, and he paid the ultimate price for them. When journalist Martha Elliott first heard of Ross, she learned what the world knew of him—that he had been a master at hiding in plain sight. Elliott, a staunch critic of the death penalty, was drawn to the case when the Connecticut Supreme Court overturned Ross's six death sentences. Rather than fight for his life, Ross requested that he be executed because he didn't want the families of his

victims to suffer through a new trial. Elliott was intrigued and sought an interview. The two began a weekly conversation—and developed an odd form of friendship—that lasted over a decade, until Ross's last moments of life. Over the course of his twenty years in prison, Ross had come to embrace faith for the first time in his life. He had also undergone extensive medical treatment. The Michael Ross whom Elliott knew seemed to be a different man from the monster who was capable of such heinous crimes. This Michael Ross made it his mission to share his story with Elliott in the hopes that it would save lives. He was her partner in unlocking the mystery of his own evil. In *The Man in the Monster*, Martha Elliott gives us a

groundbreaking look into the life and motivation of a serial killer. Drawing on a decade of conversations and letters between Ross and the author, readers are given an in-depth view of a killer's innermost thoughts and secrets, revealing the human face of a monster—without ignoring the horrors of his crimes. Elliott takes us deep into a world of court hearings, tomblike prisons, lawyers hell-bent to kill or to save—and families ravaged by love and hate. This is the personal story of a journalist who came to know herself in ways she could never have imagined when she opened the notebook for that first interview. Mary Shelley began penning Frankenstein in answer to a dare to write a ghost story. What most people don't know, however, is that the seeds of her novel had been planted long before that night. By age nineteen, she had been disowned by her family, was living in scandal with a married man, and had lost her baby daughter just days after her birth. Mary poured her grief, pain, and passion into the powerful book still revered two hundred years later, and in Mary's *Monster*, author/illustrator Lita Judge has poured her own passion into a gorgeous book that pays tribute to the life of this incredible author.
