The text also emphasizes the importance of principle-driven approaches and minimizes specific procedure-based solutions. This text is a seminal work around the complexity leadership as it applies to healthcare. There are very few other references that have the clarity, depth, and detail essential to enumerate this topic in healthcare organizations. It is especially valuable for graduate programs and DNP programs as it provides a foundation for contemporary leadership and emphasizes the characteristics necessary to lead complex organizations. The Fourth

case studies. Lastly, all references have been revised and updated to reflect the most current evidence around learning leadership.

In this new book, Frederick Chavalit Tsao and Chris Laszlo argue that current approaches to leadership fail to produce positive outcomes for either businesses or the communities they serve. Employee disengagement and customer fickleness remain high, resulting in a lack of creativity and collaboration at all levels of entrepreneurial activity. Investor demand for Environmental, Social, and

Governance (ESG) continues to be poorly integrated into profit strategies. Drawing on extensive research, this book shows how changing a person's consciousness is the most powerful lever for unlocking his or her leadership potential to create wealth and serve humankind. A wide range of practices of connectedness provide the keys. The journey to higher consciousness changes people at a deep intuitive level, combining embodied experience with analytic-cognitive skill development. Tsao and Laszlo show how leaders who pursue this journey are more likely to

flourish with significant benefits to both business and society. These include greater creativity and collaboration along with an increased capability to inspire people and produce lasting change. Readers will come away with a deep understanding of quantum leadership and the day-to-day practices that can help them achieve greater effectiveness and wellbeing at work.

Drawing inspiration from quantum physics, innovative management thinker Danah Zohar offers a powerful new model for business thinking and practice. "Quantum

Leaders," she says, like the systems they have to manage, are poised at "the edge of chaos." They thrive on the potential latent in uncertainty and are adept at unleashing the creativity of self-organization. More important, they are vision- and value-led; they adapt quickly, are unafraid to play with the boundaries and reinvent the rules, and celebrate diversity. Zohar points out that the existing, business-as-usual paradigm owes a great deal to the outdated thinking, assumptions, and values of Newtonian science, which gave rise to the Industrial Revolution. Newtonian

Thinking assumes that corporations and markets are like machines--predictable, stable, and controllable; they are best managed in a way that eliminates risk and assures equilibrium.

Unfortunately, as the global financial collapse of 2008 demonstrated, this way of thinking is as obsolete as the steam engine. Further developing ideas she introduced in her acclaimed *Rewiring the Corporate Brain and Spiritual Capital*, Zohar has written an inspirational book that will motivate leaders to tap the full potential of their employees, their businesses, and the customers they
